About Us

Seoul-Gimpo Business Aviation Center

made its debut in 2016 as the nation's first dedicated business aviation services facilities.

Located at Gimpo International Airport, the facilities are owned by the airport operator, Korea Airports Corporation(KAC), a government-owned company which manages and operates fourteen airports throughout the country.

The facilities are comprised of an executive terminal and 12,490m² of hangar that can accommodate up to eight G550 or Global 6000 simultaneously.

The terminal and a part of the hangar are directly managed by KAC, with the remaining maintenance hangar area managed by KBAS, a leading company in global business aviation.

As the best spot for international corporate jets to get to and from Asia, we will commit to providing our valued customers with the safest and highest quality of services.

Korea's First Business Aviation Center
