Challenger 604

The Challenger 604 offers a trans-Atlantic range of 4,000 miles with 6 passengers on board. A beautifully equipped aircraft with a spacious quiet cabin, the 604 provides comfortable seating for 10 passengers and a large baggage area which is accessible from the cabin. The 604's operating efficiency makes it well suited for medium and long range flights and allows the aircraft to operate over short routes without a disproportionate increase in cost.
