GULFSTREAM G280

About the Gulfstream G280

The Gulfstream G280 is a super-midsize jet that was introduced in 2008 as a replacement for the G200. The G280 is capable of flying nonstop between major cities such as New York to London and Los Angeles to Honolulu. With seating for up to 9 passengers, a full galley, and fully enclosed lavatory, the G280 can complete a variety of missions.

Amenities:

- Wi-Fi
- Full Galley
- Enclosed Lavatory
