

private jets for your success

WELCOME ON BOARD!

Swiss Global Jet Management Ltd. is a private jet company established 2002 in Switzerland, with a base in Kloten, Zurich Airport.

We partner with Jet Pool Network Luftverkehrs GmbH based in Vienna, Austria, for the operation of aircraft under Jet Pool Network's Austrian AOC (Air Operator Certificate).

We provide bespoke, high-end service, tailored to the needs of today's discerning customers. We are specialized in aircraft management and charter, and also offer aircraft evaluation, sales and acquisition services. With the versatile fleet of aircraft we have at our disposal, we provide the best solution to reach any destination around the globe.

All our services are performed to the highest standards of safety, reliability and precision.

Our goal is to exceed your expectations.

John Rageth, President & Founder

Josef Speck, CEO

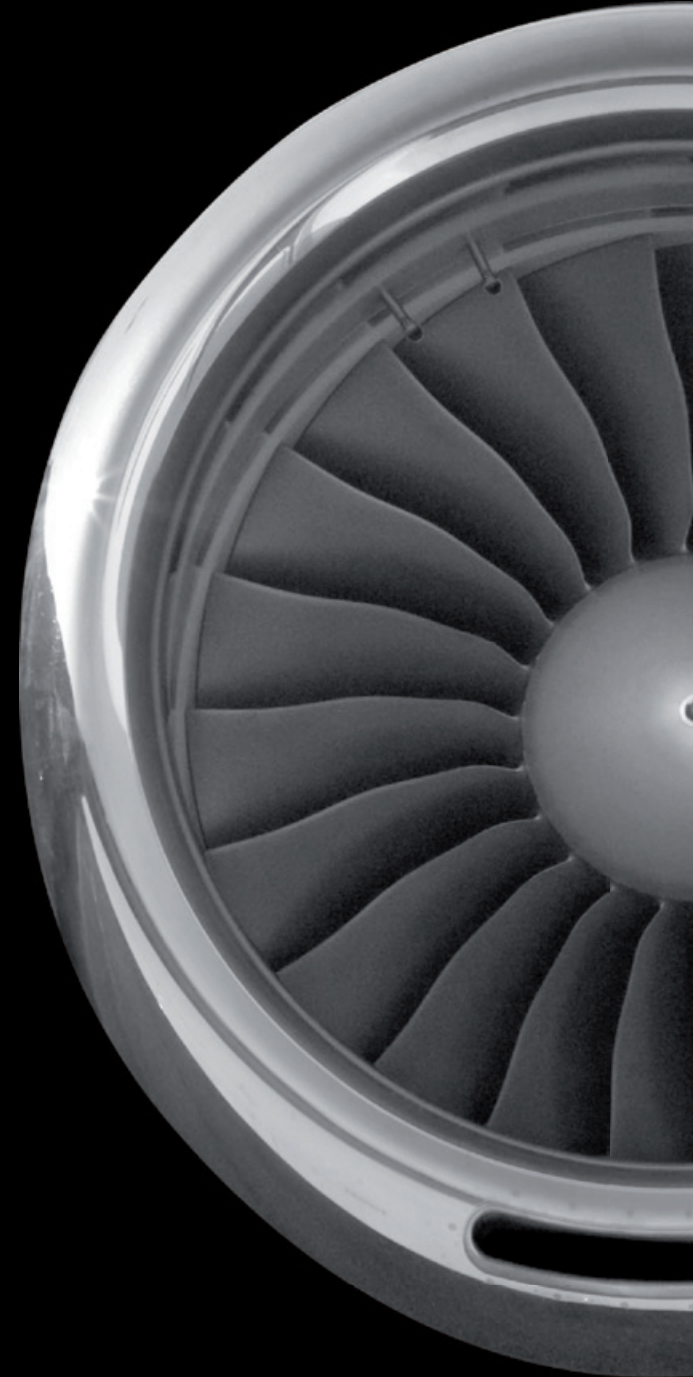

BUSINESS OBJECTIVES

Swiss Global Jet Management Ltd. has adopted and adheres to business objectives and principles which ensure that its customers will receive the best services available on the market.

We strive to be an excellent employer offering a safe and professional work environment, and to support and retain our long-standing employees and crew members. We subscribe to sustainability and environmental consciousness in the pursuit of our business.

OUR SERVICES

- Provide bespoke, custom-fit and always state of the art aircraft management solutions to corporate and private aircraft owners, tailored to the specific needs of each customer.
- Follow the highest standards of safety while maintaining compliance with all rules and regulations, safety being our top priority.
- Provide professional, reliable 24/7 charter sales, flight dispatch and planning services.
- Offer the owners of our managed fleet the possibility to include their aircraft in our worldwide charter service.
- Provide objective, transparent and professional aircraft evaluation, acquisition and sales services.

WHAT MAKES US UNIQUE

We treat safety as a core value and not just as a priority.

Our well established internal processes and short ways of communication allow us to provide an unparalleled level of attention to our customers and their needs, and to react quickly to changing demands.

All our employees are experienced, well connected aviation experts with excellent industry knowledge.

CHARTER SALES & CONCIERGE SERVICES

We have been providing outstanding charter services for more than 15 years.

Our experienced service team is available 24/7 to organize and coordinate your flights.

We also offer a concierge service to fulfill your logistics and other requirements and make your travel even more comfortable.

MAINTENANCE

Our aircraft are regularly maintained by a leading maintenance facility in order to meet highest safety standards according to EASA.

A passion for perfection.

FLIGHT TRAINING

Your safety is our main concern.

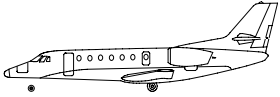

This is why only the highest qualified and experienced pilots become part of our crews. All of our pilots have been going through a bi-annual training at either “Flight Safety International” or “CAE SimuFlite” since the very early stages of Swiss Global Jet Management Ltd.

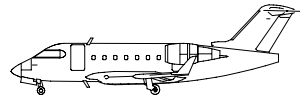

Just as important as the Aircraft's Safety devices is a well-trained Crew

RANGEMAP

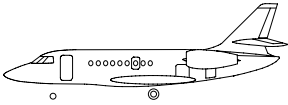

Wherever you want to go,
we have the perfect aircraft
for you.
