Incentive for all Swissport Executive Aviation Basel guests: at no extra charge

### New Swissport Executive Aviation (SEA) – Lounge opens in Basel

The new SEA-Lounge was officially opened in February 2014 and made very useful prove of it's functionality during the BASELWORLD (worldwide largest Watch- and Jewelry Fair) at the end of March this year. The stylish lounge besides a small kitchen and bar is also fitted with satellite TV and PC work stations including free WLAN- access. It is located on the south side of the terminal behind the check-in in Departure Hall 4. The new SEA-Lounge is handled by our experienced Swissport Executive Aviation staff together with their colleagues from the Skyview Lounge team.

The new facility, combined with a separate security filter allows offering an FBO similar operation to our Executive Aviation clientele and as such represents a milestone for Swissport Basel. It also brings new opportunities to our customer airlines' VIP passengers by offering this special SEA-Lounge experience on their way through the EuroAirport.

Among the first visitors was the Danish Crown Prince with his family on the way back to Denmark from their skiing holidays in Switzerland. They were delighted by the SEA-Lounge experience and of course we hope that we can be of similar service on many more occasions to come.
