

CHALLENGER 850

SPECIFICATIONS

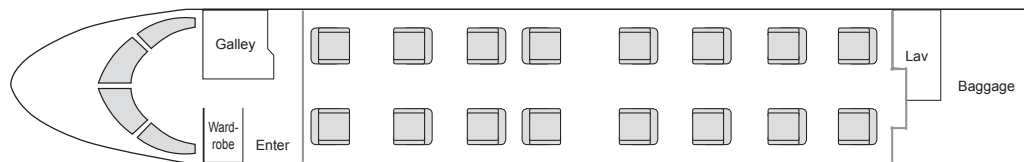

This aircraft is built for speed and comfort. With one of the largest corporate cabins available, it offers both the range of much smaller jets and the luxury of others. It also includes a class leading baggage capacity of 1150 kgs ensuring that you can be accompanied by all the things you need for any successful trip. Our Challenger 850 seats up to 16 passengers including selected seats with 170 degree recline. Meals can be as extravagant as our VIP guests request with food service supported by a full galley, 2 heating ovens, complete crockery, cutlery and glassware sets. Our guest experience is further enhanced with excellent WiFi connectivity for both work and play.
