AA CORPORATE CULTURE

Advance Aviation (AA) was established in December 2006 and prides itself in being the only true “VIP” helicopter operator in Thailand.

HIGHEST SAFETY STANDARD

Safety is our ultimate concern. That is why Advance Aviation has opted to buy BRAND NEW twin engine and single engine helicopters that integrate Eurocopter’s latest technologies and design. Not only that our helicopters are flown by over-25-years-experienced pilots, accumulated over 6,000 flight hours, but also they are maintained daily by highly professional Eurocopter’s personnel in the facility specially set up in Bangkok Thailand to ensure maximum maintenance quality of our helicopter. Whether it is business, holiday or simply casual ride, Advance Aviation, the only true VIP helicopter service in Bangkok or all over Thailand, offers a specially tailored charter arrangement to best suit your desire with ultimate VIP treatment.

PROFESSIONAL MAINTENANCE

EC-135 and EC-130 are two of the most advanced technology and design helicopters which Eurocopter is producing. Both offer the highest level of safety in the industry and have unparalleled safety records. Both are also equipped with the latest technology and avionics available to ensure that our pilots will transport you smoothly and safely to your destination. Both also feature Fenestron® tail rotor system which offers a very quiet and exceptionally smooth ride. Eurocopter Group is a Division of EADS, a world leader in aerospace, defense and related services. Eurocopter, currently the world’s No.1 helicopter manufacturer with a turnover of 3.8 billion Euros, orders for 615 new helicopters, and a 52% percent market share in the civil and public sectors. All aircrafts under our fleet are strictly maintained according to manufacturers’ standard and local DCA codes.

SERVICE ORIENTATION

Advance Aviation prides itself in being the ultimate VIP service provider. From the moment our staff greet you till the mission is completed, the aircraft is entirely yours! All details will be taken care of and well co-ordinated to ensure a smooth journey not only during the flight but also transition before and after the flight. In-flight amenities such as soft drinks/mineral water, flight details will be offered. Personal Assistant is also available upon request.

For international arrival into Suvarnabhumi Airport, we pick you up right when you step out of your plane, taking you through Immigration, Custom, and luggage handling, directly to our own lounge to board helicopter from our own helipad at our Operation Center just 10 minutes away from the airport. There you can choose to fresh up, check your emails, enjoy drinks and snacks or quickly get on board. The lounge is also available for domestic VIPs who wish to board our helicopter from our Operation Center. For those who arrive at Don Muang Airport, we will usher you directly to our helicopter.

HUMAN RESOURCE DEVELOPMENT

We believe that our staff are the most valuable resource of the company. We continuously invest to enhance our staff knowledge and expertise to bring our team to the forefront of VIP Aviation Industry.

HISTORY AND FUTURE PLAN

- **January 2006:**

Vice Chairman & owner of AA, Mr. Chai Nasylvanta decided that a helicopter would be ideal for his father, Privy Councilor Chaovana Nasylvanta who was in his late 70s, providing convenience, comfort and saving travelling time for his audience with His Majesty King Bhumibol Adulyadej at the Klai Kang Won Palace on Tuesdays.

- **December 2006:**

In order to recover some of the costs when the helicopter was idle on other days, he decided to charter it to serve VIPs and corporate users as the helicopter was already configured for VIP users plus the market looked quite promising. Thus Advance Aviation was born.

- **February 2008:**

First aircraft Twin-engine turbine EC-135 was delivered with commencement of Advance Aviation's Operation. Since then, it has been well accepted in the market as the only true VIP helicopter charter in Thailand.

- **January 2009:**

Our second aircraft - single engine, EC-130 is being stationed in Phuket to offer inter-islands transfer and sightseeing over magnificent Islands of Phuket, Phi Phi, Phang Nga, Samui, Koh Tao, etc.

- **October 2010:**

Third Aircraft adding to our fleet, single engine EC-130 is being operated in Chiang Mai and its provincial territory. It's the first helicopter ever service in North Region of Thailand.

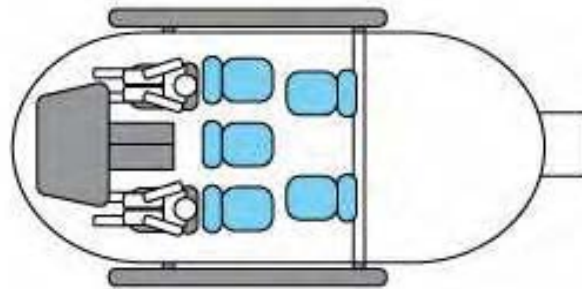

- **November 2011:**

Fourth Aircraft adding to our fleet, twin engine EC-135 is being operated in Bangkok and its provincial territory as the second helicopter in Bangkok Base. Meanwhile, we are expanding into Private Jet charter business with our first Gulfstream G200, base in Bangkok to complete ourselves as the one and only true VIP charter in Thailand.

AIRCRAFTS SPECIFICATION

CHARTER FLIGHT SERVICE

Our main service is VIP chartered flights. Whether its business, holiday or simply casual ride, Advance Aviation offers a specially tailored arrangement in our sumptuous decorated air-conditioned helicopter that best suits your desire. Picking you up from over 20 roof-top helipads in the heart of Bangkok and dropping you off or waiting to take you back from over 100 landing sites in Thailand.

Just let us know what you need, we will propose an efficient itinerary, suggest appropriate pick up/drop off points, along with quotation. Should your destination does not have any helipad nearby, it is possible for us to arrange a temporary landing permit at a minimal fee provided that we are able to submit the request to the relevant authorities 3 working days in advance. Final approval is completely up to the authority.

SIGHTSEEING FLIGHT

Scenic Flight in the Renowned City of Bangkok with Brand New Helicopter of Advance Aviation

- Departure & Landing:** AA Bangkok Base (10 minutes from International Airport)
Flight Time: 50 minutes
Special Services: Beverages are provided on board at all time and narrated by English speaking Captain

SOAR INTO SKY AND FLY HIGH WITH OUR HIGH FLYING EXPERIENCED PILOTS FOR AN ENCHANTING PICTURESQUE VIEW OF BANGKOK. BREATH TAKEN AWAY BY FLYING IN OUR NEW EUROCOPTER HELICOPTER, EC-135 – THE ABSOLUTELY MEMORABLE FLIGHT...

You would have a chance to see so many places while flying with us. Our flight originates from AA Bangkok Base and flies over Ratchamangala Stadium to Erawan Museum. From there, we will continuously fly to Phra Samut Chedi, Paknum Samutprakarn and Ancient City, door opening to the heritage of Thai wisdom.. And then we will fly along Bang Poo to get through Bhumibol 1-2 Bridges

(formerly Industrial Ringroad) and Rama 9 Bridge. On the way back, you will pass Silom area where is well-known as business road of Bangkok. And we finally fly back to AA Bangkok Base...
