Performance is the name of the game with this jet, ideal for longer trips in high elevation areas or taking off on short runways. The Cessna Citation Sovereign is designed to provide superior overall performance while surrounding its passengers in comfort. The Sovereign's cabin is over 24 feet long. It can provide up to nine passengers with many of the advantages of a large cabin jet, including a full refreshment center and multiple entertainment offerings. It also has 100 cubic feet of baggage capacity—by far the most spacious in its class.
