

**JETBEE** 

**JETBEE** 

Welcome to the world of Jet Bee Czech. We are a dynamically and rapidly growing company on European market that consists of passionate and dedicated aviation industry experts.

We effectively operate in a wide range of aviation services -commercial air charter operations, dispatching and flight planning support, CAMO and aircraft maintenance, aircraft management and overall cost effectiveness of aircraft operations.

Thanks to this spectrum of services we can offer flexible and cost-effective solutions for overall aircraft operation and management and maintenance.

For most people, SKY is the limit, for us at Jet Bee Czech, SKY is the starting point!

**Jakub Marek**

Chief Executive Officer of Jet Bee Czech s.r.o.

**JETBEE**   
**COMPANY**

Safety, comfort, luxury.  
Guarantee of privacy and reliability.

The company was founded in late 2015 for the purpose of operating private flights for its owners within the region of Europe with one privately owned Beechjet 400A.

It soon became clear that the “hunger” for this type of an aircraft on current aviation market is more than huge, so JetBee has decided to extend their fleet with another Beechjet 400A.

Incidentally, JetBee managed to purchase this aircraft together with a company based in Zurich, Switzerland and at that point JetBee didn’t only gain another aircraft to its fleet, but also gained a new sister company, “JetBee Swiss,” with this purchase.

In the middle of 2016, this new “JetBee Team” decided to expand a little bit more and decided to purchase another company together with the aircraft. Thanks to this purchase, “JetBee Team” not only grew by another territory (Czech Republic) but also gained a new type of aircraft to its fleet, “King Air C90,” and also received a full commercial air operator certificate (AOC) in Czech Republic.

When the “JetBee Team” with bases in Bratislava – Slovakia, Zurich – Switzerland and Prague – Czech Republic grew, it was obvious that the number of people looking after these operations would grow rapidly too.

Currently JetBee Team employs:  
16 professional pilots from 4 countries  
4 specialized technicians  
17 Aviation experts  
(Flight planners, ground and ops managers,  
economists and IT specialists)

In the year 2017, the companies needed to become fully self-sustained with no need to outsource any operational activities from anybody else. Decision was made to establish our own dispatch and flight planning department, to build up our own maintenance facility and gain all necessary approvals to be able to maintain our own fleet with the highest standards required by company policy.

At the end of the year 2017, JetBee was contacted to make a purchase of yet another Beechjet 400A. This aircraft was purchased with the intention of being operated under the license of JetBee.

Currently, the JetBee Team operates 3 Beechjets 400A with registrations OK-BEE, OK-BII and OK-ZUB and King Air C90 with registration OK-PRG out of bases in Bratislava – Slovakia, Zürich – Switzerland, Prague – Czech Republic and newly Norwich – England.

**The question is what will happen in 2018?**

We can't say much right now but we know that JetBee Team has decided to expand their reach even further and will definitely expand globally in 2018.

# LOCATIONS

Our airplanes feature a sufficient range of 3 135 km, making your flight as comfortable as it can get. Moscow, Cairo, Tunis, Lisbon, Paris and plenty of other cities are all within reach with our aircraft. Alongside our primary airports in Bratislava (SK), Prague (CZ), Norwich (GBR) and Zürich (CH) you are more than welcome to pick any European airport of departure. The choice is up to you!

Year of make 1999  
Refurbished oct 2014

Enclosed lavatory  
Leather seats  
Freon air conditioning  
Power outlet  
230V outlet  
Coffee pot  
Open bar  
Pets allowed  
Flight attendant on request

# SERVICES

Do not let anything to limit yourself and set off to travel in peace, without stress. Not only at destinations where it's far away, and the railway is lengthy, it is confirmed that growing private aviation has its place.

**"The combination of speed, competitive rates and high travel comfort for our clients and the attractive combination of commercial and private flights."**

# AIR TAXI

“Your satisfied journey is our goal”

## Why fly with Jet Bee?

### 1. SHORTEN YOUR FLIGHT TIME BY UP TO 53%

With Jet Bee you can avoid waiting in airport terminals. Eliminate lengthy clearance and risk of delay of regular flight.

### 2. ENJOY LUXURY OF OUR AIRCRAFTS

Beyond mere transportation Jet Bee Aviation offers many experiences. Comfortable and representative private aircraft cabins are suitable for your business meeting or for organizing unforgettable romantic dinner directly during flight. And if you for example wish to organize a wedding in the clouds, we are prepared to provide such a flight.

### 3. FLY WITHOUT TRANSFERS OR WAITING AT AIRPORTS

Private aerotaxi straight flight without transfers can shorten your journey by up to 3.5 hours.

### 4. CHOSE THE TIME OF YOUR FLIGHT

Comfort travel built around your time schedule. With Jet Bee - flights are completely customized to your program so that your path and the cost of it to be effective. Eliminating unnecessary overnight stays, lengthy commuting and transportation from major international airports and the possibility of canceling the regular flight.

### 5. LAND ALMOST ANYWHERE

Smaller private aircraft can land at ten times higher than the number of airports that of large civil aircraft on regular flights. Through the use of smaller regional airports to ensure you much closer to landing your home or place of your business meetings.

### 6. HAVE YOUR LUGGAGE ALWAYS UNDER YOUR CONTROL

With Jet Bee your luggage will be loaded at the time of your boarding before your eyes. Delay or loss of your luggage is excluded.

### 7. USE ENVIRONMENTALLY FRIENDLY AIRPLANES

The average age of the transport aircraft on routes line is more than 25 years. Airplanes for private aviation are significantly younger and less environmentally demanding.

### 8. ENJOY UNFORGETTABLE EXPERIENCE

If you desire, we will give you unique opportunity to fly a plane on your vacation. Next to our instructors you begin your incredible vacation experience that you will never forget.

Access to our empty-leg club for free – all our empty-legs and positioning flight are posted into our system and you will be able to choose from any of these empty-legs and save on your flights even more.

# FREQUENTLY ASKED QUESTIONS:

## **What do you mean by “other expenses” and how does it work.**

At this stage we are unable to specify at what destinations will you be willing to fly and for how long will you like to stay at the destination. Unfortunately, every airport has different pricing policy, so we are unable to specify the cost of each landing.

For this reason, we have decided that we will be billing you according to destination airport (handling and landing fees) and period that you will stay at your destination (parking of the aircraft, crew accommodation and per diem, de-ice) also if you have any special requests like non-standard catering, flight attendant etc.

These invoices will be all added together and billed to you at the end of each month.

## **How long in advance do I have to order the aircraft in order to secure the flight for myself?**

There is an on and off-season period.

The Off-season period is between 1st October till 30th March in this period it is more than enough to book the aircraft a week before your desired flight.

The On-season period is between 1st April till 30th September in this period we suggest booking the flight 2 weeks before your desired flight.

## **How much do I pay if the aircraft has to position from different airport for my flight?**

You have two options either you decide that you will pay the ferry flight separately or you use it out of your prepaid program. If you decide to pay it separately than the price per positioning flight hour is 1870 EUR per positioning flight hour

If you decide to use it out of your prepaid program than the calculation will be, each one hour of positioning flight only counts as 50 minutes (rounded) from your prepaid hours. Which is basically 15% less than passenger flight.

## **What if the aircraft has technical issues / AOG?**

If a technical issue or AOG should occur we will try to substitute your booked aircraft with one of ours if possible, if we can't provide our aircraft we will organize an aircraft for you and cover the cost for the flight as if

the flight would be flown with our aircraft. We do that normally even if the client is not a part of our program, so we are always able to get our clients to desired destination.

## **What if I decide to cancel the program for whatever reason before I flown all prepaid hours?**

The cancellation policy is different for each of the frequent flyer program:

Frequent flyer 20: If client decides to cancel the program before all prepaid flight hours are flown, JetBee Czech will return 20% of the flight hours price that was not flown up to the date of the cancellation, minus the discount that was provided with the program

Frequent flyer 50: If client decides to cancel the program before all prepaid flight hours are flown, JetBee Czech will return 50% of the flight hours price that was not flown up to the date of the cancellation, minus the discount that was provided with the program.

Frequent flyer 100: If client decides to cancel the program before all prepaid flight hours are flown, JetBee Czech will return 100% of the flight hours price that was not flown up to the date of the cancellation, minus the discount that was provided with the program.

## **How long is the frequent flyer program valid? How much time do I have to fly all prepaid flight hours?**

Each of the program is valid for the period of 12 month from the date of contract signature.

After this period, you can transfer 50% of your unflown flight hours from the previous year by purchasing a new frequent flyer package.

## **When do I pay for my chosen program?**

You will be asked to pay the program at the signature of the contract in full, according to your chosen frequent flyer package.
