

C-GNSC

Learjet 45XR

The Lear 45XR is a modern light jet capable of flying 8 passengers up to 1,700 nm; a distance of 300 nm more than the Lear 45. The Lear 45XR is fast, well appointed and particularly suited for short and medium range operations. The Lear 45XR also offers a competitive tariff rate and excellent value in the light jet category.
