Challenger 650

The 2015 Challenger 650 is Bombardier's newest 600 series aircraft. It offers the widest-in-class cabin, and with its optimized engines delivers higher thrust, shorter take-off field length, and extra payload. The 650 has a range of 4,000 miles. A beautifully equipped aircraft with a spacious quiet cabin, the 650 provides comfortable seating for up to 12 passengers and a large baggage area which is accessible from the cabin. The 650's operating efficiency makes it well suited for medium and long range flights.
