

A6 DAS

Step inside a world of comfort and delight.

RoyalJet

BOEING BUSINESS JET

A6 DAS

This freshly refurbished and spectacular aircraft offers a VVIP interior which includes a forward stateroom with ensuite VIP lavatory, forward and aft galleys, club / conference seating and a VIP lounge (majlis) mid-cabin, aft business class, and standard class seating.

A comprehensive interior refurbishment was just completed on A6 DAS in 2021, utilizing state of the art materials and a design that reflects the culture and identity of Abu Dhabi and the UAE. This brand-new interior represents the launch of the RoyalJet customer experience transformation and features the very latest lighting, cabin management and in-flight entertainment systems which are complimented by a high-quality sound system including overhead speakers and subwoofers.

The aircraft has also been equipped with the highest speed communications system (Ka-Band WiFi) available globally, which allows passengers to stream high definition video content throughout the flight, including via their own personal accounts with providers such as Apple TV, Netflix and Amazon Prime Video.

A cabin humidifier system and HEPA filtration are also featured, which optimize health and comfort, leaving passengers more relaxed and fresher upon reaching their destination.

The cabin configuration offers flexibility between lower density (36 pax) or higher density (46 pax) depending on the client's preference and mission profile, and the aircraft is also capable of being converted into Medevac configuration via the installation of up to three ICU modules.

For a restful and comfortable trip overnight or at any time of the flight, this aircraft offers a queen-sized bed, 4 lie-flat seats, and from 8 to 16 seats reclinable up to 140°.

DAY CONFIGURATION
