Enjoy a new travelling experience with the Agusta 109 Power Elite. Fly for business or for leisure to any destination in speed, style and safety. Apart from its striking aerodynamic silhouette with its streamlined frontal area, the air-conditioned cabin offers a six (6) passenger spacious, soundproofed and luxurious environment, equipped with an exclusive leather seated interior.

In addition to its elegance the Agusta 109 Power Elite is one of the fastest commercial helicopters in Greece, travelling at a speed of 130 nautical miles per hour. Its two engines and two separate flight control hydraulic systems guarantee the highest level of safety for your flight.
