Dutch pride

➤ Silver Flight has something called Dutch quirkiness; a different aeroplane, a different mentality. We believe we can make flying smarter and more comfortable. And that you should be free to choose your destination.

Smart

True efficiency is flying straight to your actual destination.

Comfort

Enjoy your journey in peace, from the comfort of your spacious seat.

Conscious

Fly with minimal CO₂ emissions and maximum compensation.

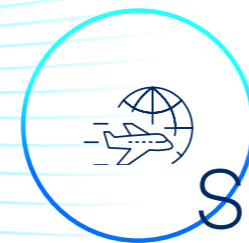

Partnership

As we are in a sustainable partnership, Silver Flight arranges your trip from A to Z.

Safe

Safety first; we comply with the highest safety standards and certificates.

Smart

Pilatus PC-12's power lies in its ability to land where other private jets cannot. This allows us to reach over 2,500 European destinations, making it possible for you to experience the most efficient and therefore comfortable journey.

Comfort

Maximum comfort. From the moment you book your flight until the moment you get back home. Our cabin provides you with abundant space, enabling you to bring large-sized baggage items along.

The modern BMW designworks interior lifts you to new levels of comfort. Dream away in one of the spacious leather seats whilst overlooking the earth beneath from the big windows.

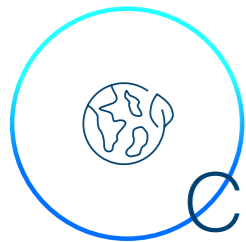

Safe

Not only do we care deeply about your time, comfort, convenience and budget, your safety is of utmost importance to us. As such, our European Aviation Safety Agency (EASA) certified pilots always fly in pairs.

On top of that, Silver Flight boasts an Air Operator Certificate (AOC) issued by the Ministry of Infrastructure to airlines complying with the strict European EASA standards.

Conscious

Equipped with a single engine, our aircrafts use fifty percent less fuel in comparison to other private jets. We fly you closer to your actual destination; less transfers, less miles. And yes, we do emit CO₂. However, by means of Certified Emission Reductions (CER's) of the

United Nations (UNFCCC) we compensate a full 100%. Also, we keep a close eye on the developments around flying electric. When opportunities arise, we are first in line.

Partnership

We are deeply committed to offer efficient solutions, for your business as well as your private life. Because we are partners, we ensure you to reach your destination promptly. Our partnership is built on mutual trust and personal care.

We go out of our way to ensure you enjoy your journey. A welcoming glass of your favourite Bordeaux? Our pleasure. A quick transfer to your meeting downtown? Not to worry.

Would you like to learn more about Silver Flight's endless possibilities? We would be pleased to get in touch. The button below leads you to our website's contact page. Will we meet soon during an obligation free meeting?
