

SUPER-MID JET N896TC

Embraer Praetor 500

Access to airports throughout North, Central,
South America, Europe and the Caribbean

Different by design. Meticulously Fashioned. Invigorating.

Meet the Praetor 500, the world's most technologically advanced super-mid business jet, built for the innovators to take command. The Praetor 500 disrupts the conventional notions of what a business jet can do. This industry-leading aircraft is remarkably fast with incredible range, all while keeping your comfort in mind to be functional, luxurious, and sophisticated.

With best-in-class speed, best-in-class range, cabin altitude, craftsmanship, and amenities, you will save time and feel fresh on arrival – ready to seize the day with more freedom to take command at more destinations.
