

Airbus A320-233: 180 Seat Standard Class

A quiet, modern, environmentally friendly, twin engine jet with a spacious ergonomic interior, the A320 is one of the most popular aircraft in the Airbus family. Titan Airways' sleek 180Y cabin features modern slim-line seats upholstered in pale grey leather for a bright, airy feel. The 180 seat option enables us to offer a like-for-like aircraft for airline sub-charter and lease roles and is also a popular choice for tour operator flight series and sports travel. The aircraft features a brand new in-flight entertainment system, enabling passengers to stream content, including movies, games and magazines, from an onboard server to their own Portable Electronic Devices. For greater choice, Titan Airways' Airbus A320 aircraft is also available in a 168 seat configuration.
