PASSENGERS: 9
CABIN DIM.: L: 19.9' W: 5.2' H: 4.11'
HOME BASE: Austin, TX

New models of private jets come out every year, but it's only ever so often that a jet is released that is truly innovative. The Learjet 45 is one of the rare jets to seamlessly integrate new technology with a tested and successful older design. Its speed and economy are to be expected—being a Learjet—but its remaining features combine to create a high-quality private jet. In the Learjet 45, you will find a harmonious blend of form, function, and freedom. Designed to fly faster, higher, and further with more guests and range flexibility, this jet offers the largest cabin and more seated head, shoulder, and leg room than its competitors. The Learjet 45 is an extremely reliable jet with great cruise performance and fuel economy. Its innovative systems and efficient performance make it a viable option for anyone in search of a high-performing, cost-effective mid-sized private jet.
